July 11th 1917 19

Dear Mr Paull.

I AM glad to think there is a prospect of seeing you and Mrs Paull again and we shall be most pleased to put you up on Friday night. My wife will be most pleased to see you both and we shall certainly expect you. I have a note this morning from my London Office asking me to be prepared to inspect a property near Perranporth this week end, so possibly may have to get away on Saturday morning but this must not interfere with your coming as my wife will be at home and the business is very vague in any case. I have no idea what mine it is but suspect it has something to do with either Iron or Lead (Alfred).

I have a lot of Tin+Wolftram Ore at Treburland which will I think shew Wolftram values around 25% and Tin up to 6 or 7% Would this be of interest to you% I usually sell such Ore at this mine to the Murex Co. We can discuss this when we meet.

Looking forward to seeing you on Friday and with

kind regards

Yours sincerely
