14th February 1916

Frank Paul Esq.
Manager.
South Crofty Co
Care Pres.

Dear Sir,

I shall be ever so much obliged if you will let me have a reply with reference to the sample of Tin-Wolfram Concentrate which Mr. Felmeas took to South Crofty last week.

We are working on a small scale & are producing approximately one ton of Concentrate monthly. Sometimes the Wolfram exceeds the Tin in value, & vice versa, & are anxious to dispose of the Concentrate locally. With reference to the cleaning of the Concentrate we can have it cleaned to any reasonable degree of purity, & if you can see your way to offer for the parcel we will

Wheal Kitty and Penhalls United, Limited.

Special Enquiry.

Endeavour to meet with your wishes in
that respect.

At present we have at least
1½ tons to offer & since Mr Telmeas submit-
ted the sample to you, the whole has been
screened & tossed, consequently most of the
rough sand is eliminated & the product
should be of a higher quality.

Trusting you may be able to
offer for the parcel.

I am

Yours truly

Amos Telmeas
