Dear Capt. Paull.

Am sending you remaining Samples on list, viz, those of Class. 4.

I much regret being unable to bring them over myself but am rather busy to-day.

I am also sending you two bottles to hold the 'Black Sea' resultant from the various assays.

Could you let them have, any of the unused portions of Samples that have been already vanned, as I am sending those in all cases to Mr. Baker for Chemical assay.

You will notice there is one of to-day's Samples which is not on your list, viz. No 136, and also ^{that} Sample in Bag 104 has not been sent.

I think ~~that~~ this will be all the samples, which we shall need assayed.

Yours sincerely
H. Williams
