J. Paul Esq

South Crofty Mine

Carnbrea

Dear Sir

I understand that you are buying Arsenic ore .

As we have not sufficient calcining capacity for the ore we can mine, it is possible it might suit you to purchase some .

If so please send me a tariff on which you would be prepared to purchase :-

Lump ore from Wheal Busy as you formerly purchased assaying from 12% to 20% As_2O_3 equivalent

Fines thro half inch screen assaying about the same

Mill concentrates assaying 25% to 35%

Yours faithfully

A. Richard
