J. Paul Esq  
South Crofty Mine  
Camborne

Dear Sir.

We have some Arsenic poor  
to dispose of probably 3 tons,  
it should be cleaner than the  
last lot you purchased from  
us as I have had cement floors  
put in here, if you are prepared  
to buy it will you kindly let  
me know when I could send  
it on also let me know the  
usual method for conveying  
same whether in bags or in  
cans with covering over  
same.

Yours faithfully  
Joseph Tapp
